

# Understanding the Mental State Examination (MSE): a basic training guide

Developed by the Perth Co-occurring Disorders Capacity Building Project Consortium (Non-Residential)

The Perth Co-occurring Disorders Capacity Building Project (PCDCBP) is pleased to present a new training resource for the alcohol and other drug (AOD) sector:

## ***Understanding the Mental State Examination (MSE): a basic training guide***

This **free** DVD and accompanying booklet is an instructional training tool that is designed to build the capacity of AOD clinicians to complete a baseline MSE on their clients. It contains three visual case study scenarios that clinicians can use to test their knowledge and skills in conducting an MSE.

Although designed primarily for the AOD sector, trainers, educators and clinicians working in the mental health field may also find this resource useful.

Copies of this resource are free, and as such a limit of two DVDs per service is preferred. However, if you require additional copies please contact the Project Coordinator on (08) 9287 5400.

Please complete the following details and then post, email or fax your order to:

Palmerston Association Inc  
 3/73 Hay St, Subiaco WA 6008
